CONEG CERTIFICATE OF COMPLIANCE

We certify that all package components sold in the United States to **Senior Paper Corp.** and/or its subsidiaries comply in all respects to the package requirements for heavy metals of the **CONEG** Model legislation; namely, that the sum of the concentration levels of lead, cadmium, mercury and hexavalent chromium present in any package or package component shall not exceed the following:

100 Parts per million by weight

Effective January 1, 1994

All packaging and packaging components shall be subject to this title except: (1) those made or delivered prior to January 1, 1992; (2) those containing the metals in order to comply with federal health and safety requirements for which there is no practical alternative; (3) those that exceed the limits because of the addition of post consumer materials, but only until January 1996; and (4) any glass container intended for refill or reuse, but only until January 1, 1994.

We will maintain adequate documentation of this certification, including that of any exemptions permitted by the legislation. Documentation will be made available for inspection.
