

## PAPERBOARD SOURCE CERTIFICATE

We received your request for information regarding the origin of paperboard products manufactured by Clearwater Paper Corporation.

We certify that all pulp and solid bleached sulfate paperboard products sold by our Idaho Mill are manufactured exclusively from 100% virgin fiber pulp and contain no post-consumer or recycled material.

In addition, our fiber source consists of primarily Northern softwood tree species which are characteristically sources of long fibers and may include some hardwood fiber.

We certify that all our paperboard products are manufactured in the U. S. A.

We further declare that the master label on all rolls clearly shows the country of manufacture to the right of the Candesce registered trademark as follows:
